

GLOBAL VEHICLE TRADING PLATFORM

KOREA AUTO TRADE

A clear guide for international buyers — real-time inventory, transparent offers, and a structured path from inquiry to shipment.

Website

rbautotrade.com

Focus

Transparency · Speed · Reliable process

Audience

Overseas dealers & professional buyers

Language

English interface for global use

DIFFERENTIATION

Built for serious buyers

KOREA AUTO TRADE is designed to reduce friction in cross-border vehicle trading — with live inventory, clear listing data, and a guided purchase flow.

Real-time listing updates

New units are published continuously across Hot Deals, Car Listings, Live Auction, and Stand by. Category pages refresh order so buyers see relevant stock — not only the newest upload every time.

Transparent listing information

Each vehicle page presents structured specs (VIN, transmission, odometer, fuel), condition notes, photo galleries, and video when available — so decisions start from facts, not guesswork.

Member offer system

Registered members can submit purchase offers on listings and track them under **My offers**. This creates a cleaner negotiation trail than scattered chat messages alone.

Guided buying process

From price check to deposit and shipment, the How to buy flow explains currency options, documents, and shipping responsibility in four clear steps.

What this means for you

Faster shortlisting, fewer repeated questions, and a professional process that scales for overseas dealers sourcing from Korea.

ACCESS

Start in three minutes

Most browsing is open to visitors. Registration unlocks member tools such as purchase offers, Live Auction access, and My offers tracking.

STEP 01

Open the website

Visit **rbautotrade.com** on desktop or mobile.

STEP 02

Browse inventory

Use the top menu: Hot Deals, Car Listings, Live Auction, Stand by.

STEP 03

Create an account

Tap **Join**, submit your details, then wait for approval if required.

STEP 04

Log in & act

Use **Login** to submit offers, open Live Auction, and manage My offers.

Main menu map

Hot Deals	Featured / high-priority units highlighted for quick attention.
Car Listings	Core inventory. Order rotates on each visit, with higher-cost units tending to appear earlier.
Live Auction	Member-access auction listings and offers (sign-in required).
Stand by	Additional ready stock; shuffled on each menu visit for fair exposure.
How to buy	Official 4-step purchase & shipment guidance.
About Us	Company profile, strengths, and all contact channels.

REAL-TIME STOCK

Find and evaluate units

Use search and category pages to shortlist vehicles, then open a listing for full detail.

Search

The top search bar supports make, model, VIN, serial number (S/N), and notes — useful when you already know a unit reference.

Sale status

Listings may show status such as on sale, reserved, or sold. Reserved / sold units follow platform rules for viewing and offers.

On every listing detail page

- **Vehicle identity** — title, year / make / model, S/N
- **Key specs** — VIN, engine mark, transmission, odometer, fuel type
- **Condition notes** — English notes when available
- **Media** — photo gallery and YouTube video (when provided)
- **Direct contact** — WhatsApp, KakaoTalk, Facebook Messenger with vehicle context
- **Member offer panel** — submit and review your purchase interest (signed-in members)

Transparent specs

Photo + video evidence

One-tap messaging

Offer trail for members

Tip for busy importers

Open the listing → check notes & media first → send WhatsApp/Messenger with the auto-filled vehicle text, or place a member offer for a cleaner paper trail.

PROCESS INTEGRITY

Clear offers. Clear next steps.

Messaging is fast. The platform also provides structured tools so price discussions and follow-up stay organized.

1. Inquire

Ask via WhatsApp, KakaoTalk, or Messenger. Listing buttons attach vehicle identity for you.

2. Offer

Members can submit a purchase offer with amount and currency on the listing page.

3. Track

Open **My offers** to review open / closed interest in one place.

Live Auction (members)

Live Auction listings are available to registered members. Guests see a clear access message with Login / Register options. Once signed in, you can review auction units and participate through the same offer workflow where enabled.

What stays transparent

Listing data	Specs, notes, media, and sale status are shown consistently on each vehicle page.
Communication	Multiple official channels — WhatsApp, KakaoTalk, Messenger, email — with the same contact team.
Commercial path	How to buy explains price check → invoice currency → deposit → shipment release.
Member activity	Offers are stored against your account for follow-up and review.

GUIDANCE SYSTEM

Four steps to shipment

Follow this sequence for a smooth close. Details also appear on the website under **How to buy**.

STEP 01 · PRICE**Receive price**

Check pricing via WhatsApp (or other official chat channels) for the specific unit.

Transport, taxes, and export declaration fees are charged separately.

STEP 02 · INVOICE**Generate invoice**

Choose currency for documents:

KRW — tax invoice / export declaration · USD — export declaration

STEP 03 · PAYMENT**Deposit**

Keep the agreed deposit date. Shipment is arranged only after deposit confirmation.

STEP 04 · RELEASE**Shipment**

Buyer is responsible for shipping costs. Arrange transport yourself, or share address/contact for assistance.

Urgent matters

For time-sensitive questions, prefer **KakaoTalk** or **Facebook Messenger** so the team can respond quickly during business hours.

SUPPORT

Official contact channels

Use platform buttons on listing pages when possible — they help identify the exact vehicle.
